

POSTDOCTORAL POSITION IN CHEMINFORMATICS

The Metabolomics Innovation Centre

The Metabolomics Innovation Centre (TMIC) is located on the North Campus of the University of Alberta, in Edmonton, Alberta, Canada. Under the direction of Dr David Wishart, TMIC is Canada's core metabolomics facility. A major focus of TMIC is the maintenance and development of new and improved resources both chemical and informatic for metabolomics analysis. Informatics resources available include a wide array of custom and commercial software and databases. This post is funded by Genome Canada and is available immediately.

Skills required:

- PhD in cheminformatics or bioinformatics
- Experience with Ruby on Rails and other web development and prototyping platforms
- Knowledge of R, Python, Pearl
- Experience with server system maintenance
- Familiarity with metabolomics
- Experience with data analysis including MS and NMR spectral analysis

To Apply:

Forward your CV and contact information for three references to:
